TECH CENTER 1600/2300

Dear Sir:

In response to the Office Action mailed January 14, 2003, Applicants respectfully request the Examiner to enter the following amendments and consider the following arguments.

IN THE SPECIFICATION:Please amend the specification as follows:Please amend the paragraph beginning at page 12, line 12 as follows:

The nonionic surfactants may be:

-- polyoxyalkylenated (polyoxyethylenated, polyoxypropylenated or polyoxybutylenated) alkylphenols in which the alkyl substituent is C₆-C₁₂ and containing from 5 to 25 oxyalkylene units; examples which may be mentioned include the TRITONTM-X (polyethylene glycol p-isooctylphenyl ether) products Triton X-45, X-114, X-100 or X-102 sold by Rohm & Haas Co.;
